Promoting and Protecting the Rights of Persons with Disabilities

DISABILITY ISSUES IN THE 2015 LEGISLATURE STATUS REPORT #5

Jim Jackson, Executive Director
Disability Rights New Mexico
February 23, 2015

Coming Events:

Mar. 11: Behavioral Health Day at the Legislature

Committee hearings this afternoon:

- * Senate Finance Committee is hearing SB 216, requiring an annual report on the DD waiver program.
- * House Judiciary Committee is hearing HB 222, mental health community engagement teams.

House poised to pass state budget bill. The House Appropriations and Finance Committee has approved its version of the bill that will fund all of state government in the coming year. HB 2 is likely to be voted on by the full House today or Tuesday, and passed on to the Senate for its consideration. With only \$83 million in new money to spend in a state budget totaling \$6.2 billion, program increases are few and far between. There is no new money for the overall Medicaid program, but the latest projections are that the current funding level will be adequate in the coming year. Here are some of the other major items in the bill of interest to the disability community:

Behavioral health: The total budget for Medicaid behavioral health is increased by \$91 million; this is all federal money and is due to the coverage of so many additional adults with behavioral health issues due to the expansion of Medicaid eligibility under the Affordable Care Act. The budget includes a total of \$1.3 million in new state funding for mental health crisis triage centers. Since \$500,000 of this is in the Medicaid program, which generates federal matching funds, total support for this effort should be around \$2.5 million. The bill also includes \$650,000 in non-Medicaid funding for transitional and supportive living, and \$50,000 for support services for homeless mentally ill individuals. There is also \$300,000 to expand the NMSU program that trains mental health nurse practitioners.

Developmental Disabilities: Although state funding remains flat in the budget, a slight improvement in the federal match rate is expected to generate an additional \$1 million for the program. The budget bill uses this increase to provide \$300,000 for rate increases for Family Infant Toddler (FIT) early intervention providers, and another \$300,000 for rate increases for DD waiver providers. While it is not specified in the bill, it appears that there is also \$400,000 in new funding for the DD waiver program – enough to take about 20 people off the 10-year waiting list. This would be in addition to the approximately 300 people DOH already plans to serve from the waitlist. The bill also allows DOH to keep any money left over at the end of the current fiscal year in the DD waiver budget

rather than returning it to the state treasury, and to spend up to \$1.1 million of any leftover money to improve program infrastructure and increase the capacity and quality of the DD provider network

Guardianship: It appears that this version of HB 2 includes \$175,000 for a project in the 2nd district court (Albuquerque) for monitoring and oversight of guardianship arrangements for persons with disabilities. The Office of Guardianship at the DDPC receives an increase of about \$179,000.

Other state agencies: There is no new money in the budget for the Commission for the Deaf, Commission for the Blind, DVR, Independent Living, or the Governor's Commission on Disability. Slight increases are provided to the DD Planning Council and the Brain Injury Advisory Council.

More than half-way home. This past Thursday marked the mid-point of the 60 day session and the deadline for introducing most bills. The large stack of last minute bills added that day included a large number of "dummy bills" that are assigned to various committee chairs and legislative leaders. These blank bills can be converted into substantive legislation later in the session. A total of 1,365 bills and 246 memorials have been introduced this year. The pace of the session is now picking up as House and Senate committees work into the evenings and weekends to plow through their assigned bills.

Restrictive voter ID bill tabled. On Saturday, the House Government, Elections and Indian Affairs Committee tabled HB 340, which would have required those who vote in person to present a photo identification such as a driver's license. Public testimony, as well as personal anecdotes provided by several committee members, indicated that such a requirement would keep many eligible voters from voting. The committee approved an alternative measure, HB 61, which allows voters to verify their identity by giving their birthdate and the last four digits of their Social Security number or to present a government-issued photo ID. Current law calls for a voter simply to give their registered voting address and their birthdate. HB 61 now goes to the House Judiciary Committee.

Bills and Memorials in the 2015 Session

This list is grouped by disability or subject matter and shows the bill number, sponsor, a description of the bill and the current committee assignments or action taken on the bill or memorial. See pp. 11-12 for a list of abbreviations used in this section.

Autism Services

- **HB 103** Autism License Plates. Rep. David Gallegos. This bill would authorize a specialized license plate to promote autism awareness. The plate would cost \$35, and \$25 of the fee would go to the Department of Health to support autism research, outreach and education. Passed the House 49-0; awaiting Senate committee assignments.
- **HM 56** Study possible link of autism and Roundup. Rep. Brian Egolf. This memorial calls on CYFD and DOH to evaluate recent research suggesting a link between glyphosate, a key ingredient in the herbicide "Roundup", and the growing incidence of autism in children. HAWC/HHC

Behavioral Health/Mental Health

- **HB 44** Gun show sales and reporting MI determinations. Rep. Miguel Garcia. This bill regulates the sale of guns at gun shows but also requires the state to report court findings of mental illness to federal authorities for purposes of maintaining the federal data base of those who are prohibited from buying guns. Tabled in HRPAC.
- **HB 108** Priority zones for BH services. Rep. Patty Lundstrom. This bill would require the Behavioral Health Purchasing Collaborative to divide the state into "zones" based on the combined

incidence of mortality related to alcohol use, drug overdose and suicide, and give priority in funding behavioral health services to zones with the highest levels of such mortality. The state would be required to provide regular reports on behavioral health funding and services to the Legislature. Same as SB 522 and similar to SB 566, below. Passed HHC, pending in HAFC.

- **HB 212** Medicaid payment for triage centers. Rep. Terry McMillan. This bill would require the Medicaid program to reimburse mental health crisis triage centers for services provided at the same rate paid for the service when provided at a general hospital. Passed HHC, pending in HAFC.
- **HB 222.** Community Engagement Teams. Rep. Jason Harper. This bill authorizes the creation of Community Engagement Teams, which are intended to reach out to individuals with mental illness to educate them about available services and encourage them to participate in such programs. Passed HHC, pending in HJC.
- **HB 223** Supportive housing. Rep. Roger Madalena. This bill would provide \$900,000 to CYFD to provide housing and support services to families whose children have been subject to abuse or neglect, who lack adequate housing, and who have mental health or substance abuse challenges. Passed HRPAC, pending in HAFC.
- **HB 224** Broaden mental health parity. Rep. Roger Madalena. This bill would extend the state's existing parity law to include substance abuse as well as mental health services, extend the parity requirements to individual as well as group health plans, and specifically require coverage of residential mental health or substance abuse treatment for children and adults. Passed HHC, pending in HWMC.
- **HB 258** MH counselor freedom of choice. Rep. Miguel Garcia. This bill would require health care insurers to allow their enrollees to choose from among available mental health counselors. HRPAC/HHC.
- **HB 455** Behavioral health services in 3-county pilot project. Rep. John Zimmerman. This bill appropriates about \$265,000 to DFA for a three-year demonstration project in Luna, Grant and Hidalgo County to provide behavioral health services for inmates of their county detention facilities and those leaving such facilities. HHC/HAFC.
- **HB 543** Mental illness awareness license plates. Rep. Wonda Johnson. This bill would authorize specialized license plates dedicated to public awareness of mental illness. Of the \$35 annual fee for such a plate, \$25 would go to UNM for peer support programs and for peer/family education programs. HHC/HAFC.
- **HB 545** Limit pre-trial detention for misdemeanors. Rep. Stephanie Maez. Same as SB 538, below. HJC/HSCAC.
- **HB 574** Background checks for therapists. Rep. Sharon Clahchischilliage. This bill would require passing a criminal background check as part of the licensure requirements for various counselors and therapists. HRPAC/HJC.
- **HM 47** J. Paul Taylor task force. Rep. Gail Chasey. Calls for the re-establishment and continuation of this broadly representative task force to further develop an early childhood behavioral health action plan. Same as SJM 10 and SM 69, below. HHC.
- **SB 38** Supportive housing and related support services. Sen. Jerry Ortiz y Pino. This bill would provide \$10.9 million to be used over the next five years for supportive housing, case management and other support services for homeless persons with mental illness in Las Cruces, Gallup, Farmington, Santa Fe and Albuquerque, based on the "Heading Home" model successfully piloted in Albuquerque over the past few years. Passed SPAC, pending in SFC. The HAFC version of HB 2 contains \$50,000 for this purpose.
- **SB 43** Transfer Sequoyah to UNM. Sen. Jerry Ortiz y Pino. This bill would transfer the Sequoyah Adolescent Treatment Facility from the Department of Health to the University of New Mexico Psychiatry Department. In the past year, the facility has changed its approach to treatment and

dramatically reduced the use of restraints and punitive techniques – *a change that DRNM helped bring about* – but some people believe that its somewhat more selective admission criteria have caused the facility to stray from its mission as a treatment facility of last resort for the state’s most troubled youth. Passed SEC, pending in SPAC.

- **SB 44** Behavioral health in school-based clinics. Sen. Jerry Ortiz y Pino. This bill appropriates \$16.56 million to be used over the next 5 years to provide behavioral health services in school-based health clinics around the state. SEC/SFC.
- **SB 45** Behavioral health “warm line” and resource center. Sen. Jerry Ortiz y Pino. This bill would appropriate \$1.9 million to UNM to be used over the next 5 years to develop a “warm line” and resource center that would link callers to available behavioral health services in their communities. Passed SPAC, pending in SFC.
- **SB 48** Psychiatric nurse practitioner training. Senator Mary Kay Papen. This bill provides \$400,000 to New Mexico State University to expand its psychiatric nurse practitioner training program. SEC/SFC. *The HAFc version of HB 2 contains \$300,000 for this purpose.*
- **SB 53** Assisted Outpatient Treatment. Senator Mary Kay Papen. This bill would authorize court-ordered mental health outpatient treatment for persons with a history of mental illness who are considered likely to cause harm to themselves or others at some time in the future if they go without treatment. The bill has been amended extensively, and the latest version of the bill further limits who could be subject to court-ordered treatment, requires courts to follow the directions of guardians or advance directives (if any) unless there is good cause to over-ride them, and requires a treatment plan to identify the provider(s) willing and able to provide the recommended services. *The latest version of this bill still allows a district court to order medications and mental health treatment for an individual who is legally competent to make his/her own decisions, not currently a danger to themselves or others, and not accused of any crime. DRNM believes that this is a violation of the rights of such individuals to make treatment decisions for themselves.* Awaiting final Senate discussion and vote.
- **SB 154** BH training for medical professionals. Sen. Sue Wilson Beffort. This bill originally provided \$12 million over a five-year period to UNM for Project Echo, to train primary care providers to screen and treat (or refer) for behavioral health issues. It was amended in SPAC to reduce the amount to \$1 million that would be available through June 2016. Passed SPAC; pending in SFC.
- **SB 155** Recruitment of health care professionals. Sen. Sue Wilson Beffort. This bill provides \$300,000 to the Department of Health to recruit medical, dental and behavioral health providers in New Mexico. Passed SPAC, pending in SFC.
- **SB 244** Screening and services for children. Sen. Jerry Ortiz y Pino. This bill would direct HSD to broaden the definition of medical necessity for Medicaid to cover an expanded range of services. It would require all Medicaid providers, and all behavioral health providers, that serve children to screen for a history of adverse childhood events and refer them for services. Passed SPAC, pending in SFC.
- **SB 345** Reporting court findings of mental incapacity. Sen. Daniel Ivey-Soto. This bill requires the state to report all court findings of mental incapacity to the FBI’s instant background check system. The court orders covered by the bill would include guardianship appointments where a person was determined incapacitated due to mental disability, determinations that a person is incompetent to stand to trial, or involuntary civil commitments where a person was determined to have a mental illness and to be a danger to self or others. Under federal law, all such persons are prohibited from purchasing firearms. The bill would establish a process for such persons to petition the court to restore these rights. Passed SPAC, pending in SJC.

- **SB 484** Corrections-related behavioral health services. Sen. Sander Rue. This bill would require that all persons on probation or parole from prison, who are placed in an intensive supervision program due to a high risk of violation of the conditions of probation or parole, be placed into an appropriate behavioral health program, based on a needs and risk assessment. The bill would also require that over a 4-year phase-in period, half of all behavioral health programs in state prisons and community corrections programs would have to be evidence-based. SPAC/SJC.
- **SB 522** Priority zones for BH services. Sen. George Muñoz. This bill has the same provisions as HB 108, above. SPAC/SFC.
- **SB 538** Limit pre-trial detention for misdemeanors. Sen. Mimi Stewart. This bill is designed to address the problem that adults with mental illness (among others) are often arrested for minor crimes such as littering or sleeping in public parks or shoplifting, and then end up spending months in jail, especially if their competency comes into question. The bill would prohibit holding persons accused of these specific crimes in custody for more than 48 hours unless the person is also accused of a more serious misdemeanor or a felony or meets other specific criteria that would warrant such detention. SPAC/SJC
- **SB 566** Priority zones for BH services. Sen. Mary Kay Papen. This bill is similar to the revised, current version of HB 108 (above). SPAC/SFC.
- **SB 595** Native American suicide prevention. Sen. John Pinto. This bill appropriates \$51,000 to the Indian Affairs Department to support a peer-helping suicide prevention program in public high schools in Native American communities in northwestern New Mexico. SIAC/SFC.
- **SB 620** Behavioral health services in McKinley County. Sen. George Muñoz. This bill appropriates \$1.5 million to HSD to provide behavioral health services in McKinley County. SPAC/SFC.
- **SB 666** Priority zones for BH services. Sen. George Muñoz. This bill is the same as the original version of HB 108, above. SPAC/SFC.
- **SJM 4.** Alternative placements for some held in jail. Sen. Sander Rue. This memorial calls on the Association of Counties to form a task force to study alternative placements for people with mental illness in jail awaiting trial or an evaluation of their competence to stand trial. Passed SRC, pending in SJC.
- **SJM 10** J. Paul Taylor task force. Sen. Jerry Ortiz y Pino. Same as HM 47, above, and SM 69, below. SRC/SPAC.
- **SJM 24** School mental health task force. Sen. Sander Rue. The memorial calls on HSD and the PED to convene a diverse task force to make recommendations for effective provision of school-based mental health support and mental disorder treatment services to students. SRC/SPAC.
- **SM 44** Study supportive housing for homeless. Sen. Sander Rue. This memorial calls on HSD, the Mortgage Finance Authority, the NM Coalition to End Homelessness and the Albuquerque Heading Home program to identify strategies to coordinate efforts more effectively, identify gaps, and make recommendations to the Legislature. SRC/SPAC.
- **SM 69** J. Paul Taylor task force. Sen. Jerry Ortiz y Pino. This is a duplicate of SJM 10 (and HM 47) above, but this is not a joint memorial and thus requires action only by the Senate. SRC/SPAC.

Brain Injury

- **HB 556** Insurance coverage for brain injury services. Rep. Deborah Armstrong. This bill would require that individual and group health insurance policies cover a variety of services, such as cognitive rehabilitation therapy, for persons with brain injury, without a lifetime limit. HHC/HBEC.
- **SB 89** Brain Safe program. Sen. Mark Moores. Appropriates \$3 million to UNM to establish a program to do annual MRI scans on the brains of student athletes, for research purposes and to

identify changes that may be associated with sports-related concussions. SEC/SFC. The HAFC version of HB 2 contains \$175,000 for this program.

- **SB 308** Motorcycle helmets optional based on fee. Sen. Jerry Ortiz y Pino. This bill would generally require all motorcycle riders (including passengers) to wear appropriate and approved helmets, but would allow an exemption for a motorcycle owner who pays an annual fee of \$692. Fees would go to the brain injury service fund, the trauma system fund, and a new fatal-injury diagnosis and reporting fund. Persons who did not wear a helmet and were not exempt would face a first-time violator fine of \$300; second and subsequent violations would carry a fine of \$600. Current law requires helmets only for those under 18 years of age. SPAC/SJC/SFC.
- **SB 327** Mandatory motorcycle helmets. Sen. Jerry Ortiz y Pino. This bill is similar to SB 308 (above) but would require all motorcycle riders (including passengers) to wear appropriate and approved helmets, with no exemptions. Violators would face the same fines as in SB 308. SPAC/SJC.
- **SB 431** Student training on brain injuries. Sen. Bill Soules. This bill would require all student athletes in public schools to receive training and information on sports-related brain injuries. Passed SEC, pending in SPAC.
- **SB 492** Athlete brain injury protocols. Sen. Michael Sanchez. This bill would establish guidelines and limitations on youth activity leagues and coaches intended to limit concussions in young athletes. The requirements would be identical to those that already apply to public school athletic programs and coaches. SEC/SPAC.

Developmental Disabilities

- **HB 448** Authorizing legislation for ABLE accounts. Rep. Sheryl Williams Stapleton. This bill authorizes ABLE accounts in New Mexico and designates the office of the State Investment Council to oversee and regulate such accounts in financial institutions in the state. ABLE accounts, recently approved by the US Congress under the ABLE Act, allow persons whose disability occurs by age 26 to build up special savings accounts up to \$100,000 without jeopardizing their eligibility for benefit programs such as SSI. Funds in such accounts can be used for education, housing, transportation, health care, assistive technology and disability-related expenses. Same as HB 467, below. HHC/HWMC.
- **HB 467** Authorizing legislation for ABLE accounts. Rep. Ken Martinez. This bill is the same as HB 448, above. HHC/HWMC.
- **HM 9** Medical transitions for young adults. Rep. David Adkins. This memorial calls for DOH and the UNM Center for Development and Disability to convene a task force to study the needs of young adults with significant health care needs as they transition from pediatric care to the adult-oriented health care system. Same as SM 68, below. HHC/HAFC.
- **SB 19** DD waiver waiting list plan and funding. Sen. Bill Soules. *The sponsor has announced that he will not pursue this bill and will instead focus on SB 216, below.*
- **SB 216** DD waiver annual waiting list report. Sen. Bill Soules. This bill would require DOH to issue an annual report to the Legislature regarding the DD waiver program and the waitlist. The report would include a variety of data including a projection of how much it would cost the state to virtually eliminate the waiting list over a 5-year period. Passed SPAC, pending in SFC.
- **SB 312** Restore DD provider rate cuts. Sen. Carlos Cisneros. This bill provides \$3 million to the Department of Health to restore rate cuts imposed on DD waiver provider agencies in the past few years. SPAC/SFC. *The HAFC version of HB 2 earmarks \$300,000 for this purpose.*
- **SB 460** FIT provider rate increases. Sen. Howie Morales. Appropriates \$8.2 million to increase the rates paid to Family Infant Toddler (FIT) provider agencies. SPAC/SFC. *The HAFC version of HB 2 earmarks \$300,000 for this purpose.*

- **SB 620** Behavioral health services in McKinley County. Sen. George Muñoz. This bill appropriates \$1.5 million to HSD to provide behavioral health services in McKinley County. SPAC/SFC.
- **SM 37** DD Awareness Month. Sen. Nancy Rodriguez. This memorial calls for the governor to designate March as Developmental Disabilities Awareness Month and calls on all public officials to recognize the accomplishments and capacity of persons with developmental disabilities and to treat them with respect. On the President's table.
- **SM 68** Medical transitions for young adults. Sen. Jerry Ortiz y Pino. Same as HM 9, above.

Education

- **HB 53.** No mandatory psychotropic medications in schools. Rep. Nora Espinoza. This bill would prohibit schools from requiring administration of psychiatric medications for students as a condition for attending school, and make it clear that parental refusal to consent to such medications cannot be grounds for removing children from a parent's custody. Passed HHC, pending in HSCAC with subsequent referral to HJC.
- **HB 271** Sharing info on students in state custody. Rep. Gail Chasey. This bill requires PED and CYFD to share information between agencies regarding children in state custody, many of whom have disabilities, in order to improve their educational outcomes. It would also require annual status reports on the educational outcomes of these youth, as a group (not individuals). Passed HSCAC, pending in HEC with subsequent referral to HJC.
- **SB 203** School testing accommodations. Sen. John Sapien. This bill would require schools to offer standards-based tests (such as the new PARCC test) to certain English Language Learners in their primary language, and to provide a paper-based version of this test, which is typically taken on a computer, to students with disabilities if called for in their IEP. The Public Education Department has indicated that the paper option and other accommodations are already available to students with disabilities who will be taking the PARCC, but this bill would establish this one option in state law. Passed SEC, pending in SPAC.
- **SB 283** Restrict use of seclusion/restraint in public schools. Sen. Bill O'Neill. This bill would strictly limit the use of seclusion or restraints on students in public schools to emergency situations, require prompt notice to the child's parent when seclusion or restraint has been used, and require an annual report from each school district on the number of incidents involving restraint or seclusion. Passed SEC, pending in SJC.
- **SB 640** New education funding formula. Sen. Mimi Stewart. This bill would significantly restructure the existing funding formula for public schools. One aspect of the new formula would provide funding based on a presumption that 16% of a school district's population would be eligible for special education (which is higher than the current state average); actual enrollment in special education programs would not affect the amount of special education funding provided to a district. SEC/SFC.
- **SM 48** Young disability leaders. Sen. Jerry Ortiz y Pino. This memorial recognizes the work of a group of young disability leaders and their efforts to promote disability history and awareness, and calls on the Public Education Department to encourage local school districts, charter schools and colleges and universities to offer educational programs related to disability history and awareness. On the President's table.

Health Care – General

- **HB 139** Voluntary lay aftercare providers. Rep. Tomas Salazar. This bill would allow hospitalized patients to designate one volunteer lay care provider to be involved in discharge

planning and to receive training on meeting some of the care needs of an individual after being discharged from the hospital back to the patient's home. Passed HHC, pending in HBEC.

- **HB 388** Limit co-pays for physical rehab. Rep. Terry McMillan. This bill has the same provisions as SB 359, below. HHC/HBEC
- **SB 359** Limit co-pays for physical rehab. Sen. Bill O'Neill. This bill would limit the amount of co-pay that health care insurers can impose for physical rehabilitation services to no more than either the co-pay required for a specialist visit, or 120% of the co-pay for seeing a primary care provider, whichever is lower. SPAC/SFC.
- **SB 517** Health care appeals and coverage pending appeal. Sen. Jacob Candelaria. This bill would require managed care organizations (MCOs) to provide an internal appeal procedure to contest an "adverse determination", which is a termination, reduction or denial of coverage for a prescription medication or other health care service or benefit. The appeal would have to be resolved within 5 days. Until the appeal is decided, the MCO would be required to provide the benefit. Regardless of whether the appeal is resolved in favor of the consumer or not, the MCO could not charge anything more than the usual co-pay. Passed SCORC, pending in SJC.

Housing

- **HB 47** Homeless assistance. Rep. Tomas Salazar. This bill provides \$1 million to DFA for services and supports for homeless persons. A large percentage of homeless individuals are persons with mental illness. Same as SB 88. Passed HHC, pending in HAFC.
- **SB 87** Housing Trust Fund. Sen. Nancy Rodriguez. This bill would provide \$5 million to the Mortgage Finance Authority to expand housing opportunities under the Housing Trust Fund. SCORC/SFC.
- **SB 88** Homeless assistance. Sen. Nancy Rodriguez. Same as HB 47. Passed SPAC, pending in SFC.

Medicaid

- **HB 505** Medicaid coverage for former foster care children. Rep. Deborah Armstrong. This bill would require Medicaid to cover young adults who were formerly in foster care. See SB 139, below. HRPAC/HWMC.
- **SB 42** Medicaid eligibility in jails and prisons. Sen. Jerry Ortiz y Pino. This bill would require HSD to help residents of jails and prisons apply for Medicaid if they are likely to qualify and are not already enrolled, and to maintain Medicaid eligibility for recipients who enter jail or prison, in order to facilitate the prompt delivery of Medicaid services once such persons are released. Medicaid cannot pay for medical services provided in jails or prisons, but residents of such facilities are still allowed by federal law to apply for and be found eligible for Medicaid; doing this before release would help to ensure that services are available without delay upon release from incarceration. Awaiting vote in the Senate.
- **SB 55** Medicaid due process. Sen. Mary Kay Papen. This bill establishes a definition of "credible allegation of fraud" as applied to Medicaid providers, and builds in due process protections for providers who may be accused of fraud. It clarifies that simple and inadvertent errors in billing do not constitute fraud. The bill is a response to HSD's actions in 2013, when 15 agencies had their funding halted and many went out of business without an opportunity to contest the allegations. Passed SPAC, pending in SJC.
- **SB 139** Medicaid for former foster children. Sen. Michael Padilla. This bill would require the state to provide Medicaid up to age 26 for young adults who were formerly in foster care, regardless of which state they lived in while in foster care. Under the ACA, people who age out of foster care are eligible for Medicaid until they turn 26 – a parallel to the ACA rule allowing young

adults to stay on their parents' insurance until that age – but New Mexico has chosen to provide such coverage only to young people who were in the New Mexico foster care system and not to those from other states. Passed SPAC, pending in SFC.

- **SB 320** Limiting emergency procurement of health care services. Sen. Jacob Candelaria. This bill would prohibit HSD from using a determination of alleged fraud as a rationale for bypassing the state Procurement Code requirements and hiring substitute health care providers, as the department did when replacing a number of mental health provider agencies in 2013. SPAC/SJC/SFC.

Voting Rights

- **HB 61** Voter ID and other voting procedures. Rep. Jim Smith. This bill would require persons who vote in person to verify their identity. This could be done by providing one's birthdate and the last four digits of one's Social Security number, or by providing a government-issued photo ID or a federally issued or tribal ID for Native Americans. It also provides that in the future, if the data bases of the Motor Vehicle Division and the Secretary of State are shared, a voter's MVD driver's license photo could be used to verify identity. The bill would set a state standard for voter ID and prohibit more restrictive provisions by cities or counties. Passed HGEIC, pending in HJC.
- **HB 340** Photo ID requirement. Rep. Cathrynn Brown. This bill would require that persons who vote in elections in person show a valid photo ID issued by the state or federal government, a Native American tribe, or a New Mexico educational institution. Free photo ID cards would be available from state Motor Vehicle offices. *DRNM believes that such a strict photo ID requirement could interfere with the voting rights of some eligible voters with disabilities who do not have photo IDs and who would experience difficulties and expense in getting to a MVD office to obtain one.* Tabled in HGEIC.

Other

- **HB 29** Child abuse reporting. Rep. Brian Egolf. This bill would clarify that anyone who suspects child abuse is required to report the alleged abuse to the relevant authorities. A recent court case in New Mexico limited this requirement only to certain professionals such as doctors and teachers. Passed the House. SPAC/SJC.
- **HB 72** Tax credit for LTC insurance. Rep. Christine Trujillo. As amended, this bill would provide a partial income tax credit for persons with a private long-term care insurance policy. Passed HHC, pending in HWMC.
- **HB 77** Accessibility license plates for transportation agencies. Rep. Paul Pacheco. This bill would allow agencies that regularly transport clients or other persons with disabilities to obtain distinctive license plates for vehicles they own that provide such transportation so that the vehicles could legally park in designated accessible ("handicap") parking spaces. Passed the House 64-0; awaiting Senate committee assignments.
- **HB 276** Disabled veteran license plates. Rep. Jeff Steinborn. This bill would allow disabled veterans who qualify for more than one type of special automobile license plates to receive up to two such plates of their choice without an annual fee. Current law appears to provide for only one free plate. Same as SB 449, below. Passed HGEIC, pending in HWMC.
- **HB 464** Mobility impairment logo on other special license plates. Rep. Deborah Armstrong. This bill would require the Motor Vehicle Division to design a distinctive logo signifying a mobility impairment that could be added to another specialized license plate so that the combined special plate would be valid for parking in accessible parking places. An applicant for the combined special plate would have to meet the requirements for an accessible parking license plate. HRPAC/HWMC.

- **HB 476** Special needs child adoption tax credit. Rep. Alonzo Baldonado. This bill increases the annual tax credit available to those who adopt a special needs child from \$1,000 to \$1,500. HGEIC/HWMC.
- **HB 493** Court monitoring of guardianship arrangements. Rep. Sarah Maestas Barnes. Same as SB 36, below. HJC/HAFC.
- **HJR 7** Property tax exemption. Rep. Miguel Garcia. This is a proposed amendment to the state constitution that would exempt from property tax the residence of an individual who is “100% permanently disabled” and whose annual household income is no more than \$15,000. HGEIC/HWMC/HAFC.
- **HM 15** End the marriage penalty. Rep. Carl Trujillo. This memorial calls on the U.S. Congress to eliminate the “marriage penalty” for persons with disabilities who are on SSI. When two individuals on SSI get married, they are treated as a couple and their total benefits are reduced by 25% compared to their two individual benefits, and the amount of resources they are allowed to keep is also reduced by 25%. Addressing this problem will require Congressional action and the memorial calls on Congress to do so. Same as SM 3, below. **PASSED**
- **SB 36** Court monitoring of guardianship arrangements. Sen. Michael Padilla. This bill would provide \$245,000 to the 2nd judicial district court in Albuquerque to provide oversight of guardianship arrangements for elders and persons with disabilities. Passed SJC; pending in SFC. *Although not specifically earmarked, it appears that the HAFC version of HB 2 includes \$175,000 for this purpose.*
- **SB 181** Funding for civil legal services. Sen. Nancy Rodriguez. This bill would provide an additional \$2 million for the Civil Legal Services Commission to provide more legal services to low-income New Mexicans. *DRNM is one of many non-profit agencies that receive CLSC funding.* Passed SJC, pending in SFC.
- **SB 188** Regulation of youth wilderness programs. Sen. Sue Beffort. This bill would clarify that CYFD has jurisdiction to regulate and monitor wilderness programs for youth. The state’s authority to regulate these programs, which often serve young adults with behavioral issues, was challenged recently. Passed SPAC, pending in SJC.
- **SB 218** Free parking for disabled veterans. Sen. Bill Soules. This bill would provide that vehicles bearing a special license plate for veterans with 100% disability can be parked free in any parking facility owned by the state or by a city or county. Passed SPAC, pending in SJC.
- **SB 233** Parity in worker’s compensation. Sen. Pat Woods. This bill would require the same level of benefit for temporary or permanent disability for a worker who develops a mental disability due to a work-related injury as one who develops or experiences a physical disability. Current law provides a lesser benefit for mental disability. Passed SCORC, pending in SJC.
- **SB 248** Special assessment exemption for disabled veterans. Sen. Michael Sanchez. This bill would exempt a home occupied by a veteran with a 100% service-connected disability, or his/her surviving spouse if living in the home, from any special property tax assessment. SPAC/SJC.
- **SB 278** Brittany alerts. Sen. Jacob Candelaria. This bill would expand existing missing person alert programs to include missing persons with a developmental disability or a severe physical disability. Passed SPAC, pending in SJC.
- **SB 449** Disabled veteran license plates. Sen. William Burt. Same as HB 276, above. SPAC/SCORC.
- **SB 506** Disabled veteran property tax exemption. Sen. William Payne. This bill would provide that a disabled veteran who is entitled to a property tax exemption and sells his/her residence may choose either to claim the exemption for that year or transfer the exemption to another house purchased as the person’s residence. SPAC/SJC

- **SM 3** End the marriage penalty. Sen. Jerry Ortiz y Pino. Same as HM 15, above. Pending final Senate vote.

Contacting your Legislators

You can find out who your legislators are and get their contact information on the legislature’s “Find Your Legislator” web page: http://www.nmlegis.gov/lcs/legislator_search.aspx.

To find your state representative from this web page, take these steps:

- Under the heading “House of Representatives”, click on the link to “Search by Name, District or Address”
- Click on the link “OR Search by Address” near the top of the page.
- Enter your complete address (street, city, state and zip code) in the box provided
- Click on the “Find District” button, and in a few moments you’ll see the name (and a picture) of your representative and the number of the House district. If you hit the “back” button or arrow to return to the previous screen, you can click on the picture of your representative to find the member’s address and other contact information.

To find your state senator, go to the same starting web page and choose the “Search by Name, District or Address” link for the Senate.

Each legislator has an office in the Capitol. To reach a legislator’s office during the session, call the Capitol switchboard at 986-4300 and ask for your legislator. We encourage you to bring the voice of the disability community to the Legislature!

Policy and Legislative Action Network (PLAN): Join your friends and colleagues in speaking out on issues of concern to people with disabilities and their families. Become part of the PLAN! We'll let you know when there are opportunities to speak out on bills in the Legislature and other key issues, and give you background info and talking points; you show the power of the disability community by following up with calls or emails to public officials. Sign up with DRNM's project coordinator, Katie Gordon, at KGordon@drnm.org.
